Stampings, Moldings and Complex Assemblies

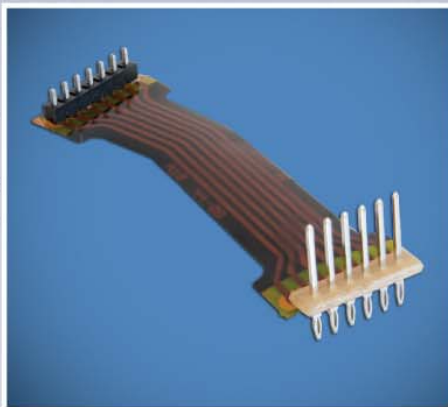

Custom Connector Design and Development for Your Flex Circuit Assembly

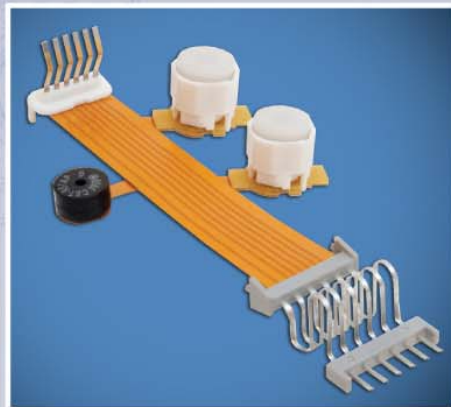

Concept Proposal

Detailed Component Design

Assembly

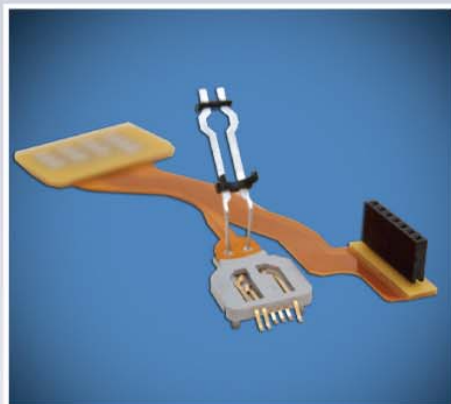

Press Fit Terminals

Custom Assembly

Solder Bearing Lead Attachment

Design Specific

Capabilities

- Designed connector solutions
- Flex circuit assembly
- Quick turn prototype delivery
- Component procurement
- Automated component placement
- Automated testing
- Automated inspection
- Stamping, plating, molding
- Press fit interconnects
- Solder bearing leads
- SMT and through hole soldering
- Conformal coating
- Insert molding
- Packaged to your specifications
